

## **Inter-scorer Reliability**

American Academy of Sleep Medicine

---

# AASM Inter-scorer Reliability Benefits

---

### **Save time and money with the AASM Inter-scorer Reliability!**

- Immediately after the assessment is completed, scorers are able to see their results and how they compared to the AASM Gold Standard panel.
- The AASM ISR assessment system saves the Reference Sleep Specialist time from having to act as the Gold Standard comparison for their facility. A board certified sleep specialist only needs to monitor and approve scorers' testing results.

### **Score at Multiple Facilities?**

- ISR is Facility location based. Scorers can link their personal Inter-scorer Reliability account to each facility's location that has purchased the ISR assessment system.
- Scorers only have to complete the monthly assessment once and their results will be sent to each facility they score at - ***Saving time and money!***

### **Free CECs!**

- The AASM ISR assessment system provides the opportunity to earn one free CEC credit each month after scorers complete the one-hour record review video and quiz. ***That's 12 Free CECs per year!***

### **Access ISR from Anywhere**

- The AASM ISR system is web-based - ***No software required!***
- Scorers can access the ISR system from any computer, allowing them to start and stop the assessment with no loss of epochs they have already completed.

### **Get Started Today**

- Visit [www.aasmnet.org/ISR](http://www.aasmnet.org/ISR) and sign up for your 30-day Free Trial.
- After creating a facility account, invite your scoring staff to start taking the monthly assessments.
- Following your 30-day Free Trial, simply choose the plan that is right for your facility!
